Subject: Appeal for Donation of C-Arm at Sanjeevani Mamta Hospital & Research Center

Dear Rtn. Paritosh Runghta,

Please accept the Greetings of Peace, Happiness, and Good Health!!

We extend our heartfelt gratitude to the Rotary Club of Mumbai Royales for the generous donation of three dialysis machines. The hospital is now registered under Mahatma Jyotiba Phule Jan Arogya Yojana scheme (MJPJAY) and providing free dialysis services to patients. Your support has significantly impacted the lives of many and reflects your commitment to serving humanity.

We seek your support once again for a vital initiative at Sanjeevani Mamta Hospital & Research Center. We are in need of a **C-Arm**—a crucial medical device that will enhance our ability to perform advanced surgical procedures, including orthopedics, spine surgeries, urology, neurosurgery, and, when required, oncology. This equipment will enable us to serve patients with greater precision and care.

Enclosed, please find the brochure for the Siemens C-Arm, which has been approved by our team of surgeons. To ensure transparency, we commit to providing regular utilization updates, including monthly or quarterly reports detailing the number of patients served, the procedures performed, and the impact created through this equipment.

With your continued partnership, we are confident we can take another significant step towards creating a healthier and more equitable society.

Thank you for your unwavering dedication to community service. We look forward to your support in making this initiative a reality.

In service of humanity,

Kamlesh Sadarangani
