

Cataract surgeries in Jalna

Team Rotary News

Club president Dhawal Mishrikotkar hands over a cheque for the surgeries to Shri Ganapati Eye Hospital.

RC Jalna Midtown, RID 3132, has undertaken an initiative to provide free eye surgeries through their Netra Narayan Motibindu Free Vision Camp.

Under the leadership of their president Dhawal Mishrikotkar, the idea of organising a service project

focusing on cataract surgery took shape. Following the successful Rotary Jalna Expo 2022, which garnered substantial revenue, the club with the availability of seed money from the interest earned on the Expo fixed deposit, inaugurated the project.

Additional funds were required to serve more underprivileged individuals. Club member Nikita Bagadiya, the project chair, devised an innovative solution to appeal to club members to contribute on the birthdays of their loved ones or in memory of departed family members. "The response was overwhelming, with more than 80 members contributing," says Mishrikotkar. The club also received CSR funding from the Lloyds Infinite Foundation, increasing the number of surgeries being sponsored.

"These surgeries are dedicated to patients living below the poverty line and are performed in Shree Ganapati Netralaya, a renowned eye hospital in Jalna," says the club president. Shri Ganapati Netralaya not only conducted the surgeries but also agreed to perform all the surgeries being sponsored by the club. Over 410 surgeries have been completed. ■

155 women screened for breast cancer

Camp educated rural women about disease

**LOKMAT NEWS NETWORK
JALNA, SEPT 2**

In all 155 women from rural areas were screened for breast cancer at Breast Cancer Detection camp organised by Rotary Club, Jalna Midtown recently, according to a press note issued here.

The camp was inaugurated by Past Rotary International President, Padma Shri Rajendra Saboo. The press note further stated that the camp was the first non-invasive early stage breast cancer screening and using last award winning Breast Exam Technology developed by an innovative Mumbai-based company UE Life Sciences.

The event was attended by Rotarian Dr. Krishna Chittur (New York) and DG Suhas Vaidya.

Saboo interacted with women on how to prevent breast cancer. President of Rotary Club Jalna

Padma Shri Rajendra Saboo and New York-based Dr Chittur interacting with women during the Breast Cancer Detection camp, in Jalna on Monday.

Manmohan Bhakkad welcomed all the guests and expressed generous contributions and awareness of health care mission.

Rotarian Dr. Anup Karwa said this was the first camp which received overwhelming response from entire Jalna in the

day-long camp which helped screen 155 women from Gundewadi and Jalna city. He said Jalna Midtown has partnered with Rotary, New York Club and been granted \$36500 from Rotary Foundation.

Under the project 24000

women from rural Maharashtra were screened at different camps. A city and the team of Mumbai doctors identified few positive cases which are being provided with medical aid and follow up, shared Dr.Karwa.
